

BUY IN BULK AND SAVE!

NOVUS Wood Group offers a wide range of Landscape Products for all your landscape needs. You can be assured of a quality product that will improve your landscape appearance, while improving the growing environment for plants, shrubs, and trees. To help you choose the products that are right for you, please refer to the following charts.

Fine Hardwood Bark Mulch –

Manufactured from selected hardwood bark. Naturally aged to provide a dark and rich mulch that can be utilized in all landscaping applications.

Screened Pine Bark Mulch –

Rich brown natural color. Material is screened to 5/8" to provide a high quality top dressing or can be added to soil for additional nutrients.

Double Ground Native Mulch –

A 100% organic mulch manufactured from local vegetation. Material is ground twice to provide a consistent attractive product. This material is widely used as top dressing and provides an alternative to bark mulches.

Coarse Native Mulch –

This product is a cost effective alternative to high-end products when moisture retention is the primary goal. Use this product around freshly planted tees to retain moisture around new root systems.

Red Mulch –

Manufactured to be an enhancement to any landscape application. NOVUS utilizes the Becker Underwood Color system which is recognized as the leader in color enhanced products.

Tan Mulch –

Tan mulch is an inexpensive and attractive substitute for expensive cypress mulches. The Becker Underwood Mulch Magic color is formulated to be non-toxic to plants and animals.

Black Mulch –

Black mulch is an attractive material to use against red brick. It provides a sharp contrast and retains its dark and rich color for many months.

NOVUS Compost –

NOVUS compost is manufactured from leaves and grass materials. It is the specified product for Harris County as their erosion control material.

NOVUS Cushion of Wood Hardwood Chip –

Manufactured from "virgin" hardwood sources. All materials engineered to be one inch in size or less for maximum durability and cushion. This material is tested and complies with ASTM standards for impact attenuation and wheelchair accessibility.

NOVUS Cushion of Wood Pine Chip –

Manufactured from "virgin" pine sources. All materials engineered to be one inch in size or less for maximum durability and cushion. This material is tested and complies with ASTM standards for impact attenuation and wheelchair accessibility.

NOVUS Potting Soil Mix –

NOVUS custom blend of ingredients was formulated by area growers to provide high quality landscape bedding mix.

Please Note: Pictures of mulches and other products are pictured as guideline. Actual color and texture of products may vary due to time of year, age of mulch, and printing inaccuracies.

Landscape Tips

- **Mulch around trees...**
 - Extend several feet from the trunk
 - Improves appearance
 - Protects trees from mowers and trimmers
 - Makes mowing and yard care easy

- **Mulch around shrubs...**
 - Cover all bare soil
 - Conserves water
 - Adds a finishing touch for a professional looking landscape

- **Use as a border around your home...**
 - Walkways and pathways
 - Wooden decks
 - Swimming pools
 - A decorative groundcover even in places where nothing is planted

- **Mulch garden beds**
 - In the Spring: Mulch around new plantings of annuals, perennials, and bulb beds
 - In the Summer: Mulch around flowers, covering all bare soil. A minimum depth of 2" is recommended. For weed suppression, use up to a 4" depth.
 - In the Fall: For winter protection of bulb beds and perennials, spread a 2-4"

layer of mulch in the late fall, after the ground has frozen or after several hard frosts.

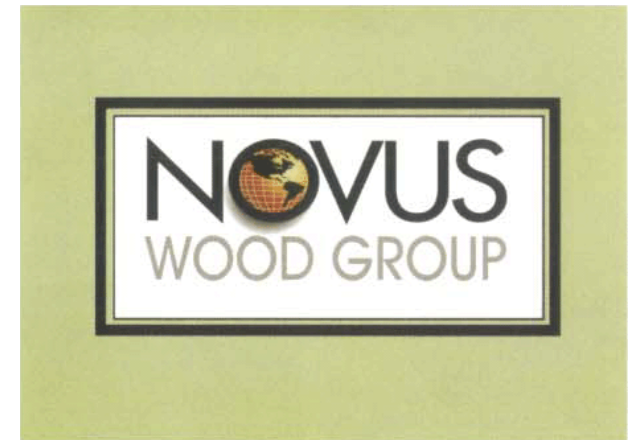

- Helps protect plants from frost
- Helps keep plants dormant
- Avoids freezing and thawing of root system
- Prevents premature opening of bulbs

- **Cover playground areas with fall surface...**

- Meets ASTM standards for impact attenuation and wheelchair accessibility
- Keeps kids from playing in mud and tracking it in the home or facility

- **Add color to your landscape**

- NOVUS uses the Becker Underwood color system, recognized as the industry leader in color enhanced products.
